 - a) Broad arm sling vs Figure of 8 bandage: The better choice in conservative management of middle third clavicle fractures in Indian population (**Podium Paper Presentation**)
 - b) Subacute Bacterial Infection Mimicking a Slipped Capital Femoral Epiphysis in an Obese Adolescent Male – A Case Report and Review of Literature (**Best Poster Presentation Category**)
 - c) Functional and Radiological outcomes in the surgical management of scaphoid fractures: K wire vs Headless compression screw (**Poster Presentation**)
7. **Paper and Poster** presentation at **IOACON 2021 (Indian Orthopaedic Association Conference)**
 - a) Radiological and Functional outcomes of Anterior Bridge Plating with Minimally Invasive Plate Osteosynthesis technique for humerus diaphyseal fractures in adults (**Podium Paper Presentation**)
 - b) Iatrogenic bone biopsy needle fracture in the sacroiliac joint and its management (**Poster Presentation**)
 - c) A solitary ventral scapular osteochondroma causing pseudo-winging of the scapula (**Poster Presentation**)

HOBBIES

Outside of the hospital, you'll probably find me with the guitar, at a gym or playing a sport. Be it football, badminton, cricket, lawn tennis or swimming, I'm always up for a game and give it my best. Throughout my MBBS, I was the captain of the football college team. Recently, I have started pushing myself into newer areas such as skateboarding, which has been fun. I also enjoy running marathons and have completed 12 marathons as a semi-professional runner and I plan for that number to grow.

Music is another go to hobby of mine, I am a part of an amateur doctor's band – Tachychordia and have been their lead guitarist for 8 years counting
